GUARANTEED TO GROW

DENVER, COLORADO

West 44th Ave. and Wadsworth
One Mile West of Lakeside on 44th Ave.

PHONE GLENDALE 4711

OUR LANDSCAPE DESIGNERS ARE AT YOUR SERVICE

TO work with you in planning a landscape improvement that will make your home attractive. Knowledge of plant materials, together with the ability to visualize finished effects, enables each of these men to be of real assistance to you in planning the landscaping of your property. We make this service available to you with no obligation on your part. You need only 'phone Glendale 4711, and one of our representatives will call at your home to discuss with you your landscape problems and make suggestions.

Properly planned landscaping need not be expensive, for most pleasing effects can often be secured by using less plant materials, if planning is done by an expert. This assistance also eliminates the necessity of costly changes in placement once the planting is set. Selection of the most suitable and hardy varieties, and attention to landscape principles are important if pleasing effects are to be attained. The use of good landscape material is necessary if the desired effects are to be realized.

In order to carry out our landscape work properly, we grow in our nurseries an assortment of trees, evergreens, shrubs, and other nursery stock as fine as any in the West. We are, therefore, in a position to furnish our patrons both the designs and the materials. Whether you own an older home, or one that has just been completed—whether your property is large or small—we shall be pleased to work with you to make your grounds more beautiful.

A REAL GUARANTEE

Our business has been built from the beginning on the solid foundation of the square deal principle. Our Guarantee, one of the strongest ever offered by any Nursery concern, is reproduced on the back cover. Read it—it is your insurance against loss.

FOUR WAYS TO ORDER QUALITY NURSERY STOCK AT REASONABLE PRICES

- Order by Phone
- Mail in Your Order
- Visit Our Nursery
- Have our representative come to your home.

1. To save time, you may phone your order right from this catalog. Just tell the clerk the name of the item you want, the size, and whether or not you want us to do the planting. Your order will be delivered C.O.D. Truck delivery is FREE within the city limits of Denver as well as in Arvada, Aurora, Edgewater, Englewood and Golden.

2. Mail orders will be given prompt attention. If you live outside of the Denver area, you may send your order by mail. A payment of 25 percent in advance is asked on all out-of-town orders, the balance to be paid C.O.D. The items you order will be sent by Parcel Post, Express, or Freight depending upon the size and weight. There is a small charge of 10 percent of the value of the stock to cover cost of packing. Our complete planting instructions will be included with every shipment.

3. There is no more satisfactory way to choose plants than by coming to the nursery yourself and making your own selections. In this way you are sure of getting exactly the variety you want. Then too, you can select the individual specimens that you most prefer.

4. When extensive planting is required or a new home is to be landscaped we suggest that you have one of our representatives visit you personally, to offer suggestions and help you in planning your landscape improvements.

OUR PLANNING SERVICE EXTENDS TO GARDENS OF ANY SIZE. LET US FIGURE ON YOUR COMPLETE LANDSCAPE PLANTING

Tree Trimming

SPECIAL NOTE: We offer the very best service available in tree trimming. Our tree experts are competent and scientifically trained—Phone for estimates.

ORNAMENTAL SHRUBS

The most complete selection we have ever offered.

FROM our stock you may choose varieties which will give you a succession of bloom beginning with the earliest days of Spring, followed by bright cheerful berries which last well into the Winter.

To aid you in selecting the most suitable varieties for your purpose, we have arranged the following key to shrub sizes which, we believe, you will find helpful.

Height of shrubs at maturity indicated as follows after each variety listing: (L) Low growing shrubs, 2 to 4 ft.; (M) Medium growing shrubs, 4 to 7 ft.; (T) Tall growing shrubs, 8 ft. or more.

ALMOND, FLOWERING PINK (*Prunus, glandulosa*) (M)—Pink flowers like tiny double roses cover the stems in early spring. The foliage is fresh looking all summer.

1½-2 ft.	-----	\$0.75
2-3 ft.	-----	1.00
3-4 ft.	-----	1.50

AMORPHA, CANESCENS (Lead plant) (L)—A low, dense growing shrub, with long spikes of blue flowers. Plant in sunny locations.

Number 1 plants	-----	\$0.85
-----------------	-------	--------

BARBERRY, JAPANESE (*Berberis Thunbergi*) (L)—This plant is graceful in habit, will thrive in sun or shade. It has small yellow flowers in June, followed by scarlet berries which last through the winter.

1-1½ ft.	-----	\$0.50
1½-2 ft.	-----	.60
2-2½ ft.	-----	.75
2½-3 ft.	-----	1.00
3-3½ ft.	-----	1.25

BARBERRY, REDLEAF (*Atropurpurea*) (L)—Similar to the green leaved Japanese Barberry but much more attractive with its purple-red foliage which becomes more brilliant as the season advances. Plant in sunny positions only.

1-1½ ft.	-----	\$0.60
1½-2 ft.	-----	.85
2-2½ ft.	-----	1.00

BUTTERFLY BUSH (*Buddleia*) (M)—A very valuable summer flowering shrub. The lilac colored flowers are in long tight clusters, and if the flowers are cut before they fade, other clusters will appear until frost. Cut the bush completely back every spring.

Ile de France (Rich Reddish-Purple).

2 yr. field grown	-----	\$0.65
-------------------	-------	--------

Magnifica (Lilac-Blue).

2 yr. field grown	-----	\$0.50
-------------------	-------	--------

GUARANTEED PLANTS AND SATISFACTION

CARAGANA ARBORESCENS (Siberian Pea Tree) (T)—A fine shrub for dry locations. Has compound leaves similar to those of the locust tree and bright yellow blossoms in small clusters. This variety is particularly beautiful in the spring when the new silvery foliage has a soft feathery appearance.

1½-2 ft. -----	\$0.40
2-3 ft. -----	.60
3-4 ft. -----	.75
4-5 ft. -----	1.00
5-6 ft. -----	1.25

CASSIA (Indian Senna) (L)—Handsome feather-formed foliage and numerous indeterminate clusters of showy yellow flowers during July, August, and Sept. Easy to grow.

Large No. 1 Plants -----	\$0.75
--------------------------	--------

CORNUS, COLORADO DOGWOOD (Stolonifera var. Coloradensis) (T)—Native variety having brownish red branches, bluish-white flowers in early summer.

1½-2 ft. -----	\$0.50
2-3 ft. -----	.75
3-4 ft. -----	1.00
4-5 ft. -----	1.25
5-6 ft. -----	1.50

CORNUS, SIBERIAN RED TWIGGED DOGWOOD (C. alba sibirica) (M)—Somewhat stronger growing but much like Yellow Twigged Dogwood. Should be planted with that variety and treated the same. Black berries.

2-3 ft. -----	\$0.75	3-4 ft. -----	\$1.00
---------------	--------	---------------	--------

CORNUS, YELLOW TWIGGED DOGWOOD (C. stolonifera lutea) (M)—A low-growing, spreading bush, with bright yellow twigs which are especially effective in the winter when planted in a clump beside the above variety. Keep the old wood thinned out to have a bright color.

2-3 ft. -----	\$1.00	3-4 ft. -----	\$1.25
---------------	--------	---------------	--------

COTONEASTER ACUTIFOLIA (Peking Cotoneaster) (M)—A very hardy shrub that is much used in the north for hedging, but is attractive as a specimen or in the shrub border. Leaves are dark green and stay on late; clusters of shiny black fruit in the fall.

2-3 ft. -----	\$0.85	3-4 ft. -----	\$1.00
---------------	--------	---------------	--------

COTONEASTER DIVARICATA (Spreading Cotoneaster) (M)—From Central and Western China. Graceful spreading habit. Small green polished leaves and small red fruit. Glorious autumn coloring.

1-1½ ft. -----	\$1.00	1½-2 ft. -----	\$1.25
----------------	--------	----------------	--------

CURRENT, YELLOW FLOWERING (Ribes odoratum aureum) (T)—The small yellow flowers in the early spring are delightfully fragrant. Has smooth, shining foliage. Fruit black with a bluish bloom.

2-3 ft. -----	\$0.60	4-5 ft. -----	\$1.00
3-4 ft. -----	.75	5-6 ft. -----	1.25

CYDONIA, JAPONICA (Japanese flowering quince) (M)—Is one of the first shrubs to flower in the spring and its fiery red blossoms are beloved everywhere. A native of Japan.

1-1½ ft. -----	\$0.50	2-3 ft. -----	\$1.00
1½-2 ft. -----	.75	3-4 ft. -----	1.25

DESMODIUM, PENDULIFLORUM (Lespedeza) (M)—A broad growing perennial shrub, bearing cerise colored blossoms in September. Attractive weeping habit of growth.

2 yr. No. 1 Plants ---	\$0.75
3 yr. No. 1 Plants ---	1.00

ELDER, FERN-LEAVED (Sambucus acutiloba) (T)—A form of green elder with cut or fern like leaves that are most attractive.

3-4 ft. -----	\$1.00
4-5 ft. -----	1.25

ELDER, GOLDEN (Sambucus canadensis aurea) (T)—A variety of elder with greenish-golden leaves. Often used to put a dash of color in the shrub border. All elders are very hardy.

3-4 ft. -----	\$1.00
4-5 ft. -----	1.25

ELDER, GREEN (Sambucus canadensis) (T)—Hardy shrub with large flat clusters of fragrant white flowers. These are followed by black edible berries. One of the best shrubs for screening.

3-4 ft. -----	\$0.75
4-5 ft. -----	1.00

Cydonia, Japonica
(Japanese Flowering Quince)

EUONYMUS, ALATUS

(Wing Bush) (L)—An interesting plant with each recent twig showing four corky wings. The brilliant leaf coloring in autumn cannot be surpassed.

2-3 ft. ----- \$1.00
3-4 ft. ----- 1.50

EUONYMUS, EUROPAEUS (Burning Bush)

(T)—A tall growing shrub with dark green bark and foliage of the same color. This variety is most unusual, because the four-lobed seed capsules which are on the shrub in the early fall, look like pink popcorn.

2-3 ft. ----- \$1.00
3-4 ft. ----- 1.25

FORSYTHIA, INTERMEDIA (Golden Bell)

(T)—Golden Bell is one of the first plants to flower. Older plants that are not trimmed back are covered with masses of bright yellow blossoms in the spring long before the leaves are on the trees.

1½-2 ft. ----- \$0.50
2-3 ft. ----- .75
3-4 ft. ----- 1.00

HONEYSUCKLE, TARTARIAN PINK (*Lonicera tatarica rosea*) (T)—A very hardy and dependable large bush with many bright pink blossoms in the spring and just as many bright red berries in August.

2-3 ft. ----- \$0.60
3-4 ft. ----- .75
4-5 ft. ----- 1.00
5-6 ft. ----- 1.25

HYDRANGEA (*Arborescens grandiflora*) (L)—The Summer Hydrangea or Hills of Snow gives us masses of white flowers in the summer. Cut the plant back each spring. Plant in east or north exposures.

2 yr. ----- \$0.75 3 yr. ----- \$1.00

JUNEBERRY (*Amelanchier, canadensis*) (T)—Attractive white flowers in early spring followed by dark red fruit. Attractive to birds.

2-3 ft. ----- \$0.85

KERRIA, WHITE (*Rhodotypos kerrioides*) (M)—Much-branched, spreading shrub with leaves somewhat like those of the common raspberry. Flowers which appear in May or June are single, pure white, and about 1½ inch in diameter.

3-4 ft. ----- \$1.00

Kerria, White
(*Rhodotypos Kerrioides*)

Lilac

LILAC, SYRINGA

LILAC, COMMON PURPLE (*Syringa vulgaris*)

(T)—One of the first shrubs brought from Europe, the Lilac has never lost its favor.

2-3 ft. ----- \$0.75
3-4 ft. ----- 1.00
4-5 ft. ----- 1.25

LILAC, PURPLE PERSIAN (*S. persica*) (T)—

A graceful shrub with long clusters of flowers, pale lilac, which appear in late spring.

2-3 ft. ----- \$0.75
3-4 ft. ----- 1.00
4-5 ft. ----- 1.25

LILAC, HUNGARIAN (*S. josikea*) (T)—A slender growing lilac which

makes a large bush, but is particularly good for the long narrow clusters of small flowers which appear much later than ordinary lilacs.

3-4 ft. ----- \$1.25
4-5 ft. ----- 1.50
5-6 ft. ----- 2.00

LILAC, ROTHOMAGENSIS (T)—Reddish purple flowers, April-May

3-4 ft. -----	\$1.00
4-5 ft. -----	1.25

LILAC, VILLOSA (Late Lilac) (T)—A Chinese Lilac which ought to be planted for its late-coming, pink flowers. Blooms a couple of weeks later than the regular forms. Fragrant.

2-3 ft. -----	\$0.75
3-4 ft. -----	1.00
4-5 ft. -----	1.50

HYBRID LILACS

CHAS. X (Reddish Purple)

CONGO (Wine Color)

HUGO COSTER (Reddish Purple)

LUDWIG SPAETH (Dark rich reddish-purple)

MARC MICHAEL (Blue)

MARIE LE GRAYE (White)

WALDECK ROUSSEAU (Pink)

2-3 ft. -----	\$1.50
---------------	--------

These larger sizes available in some varieties:

3-4 ft. -----	\$2.00
4-5 ft. -----	2.50

PHILADELPHUS CORONARIUS (Common Mock Orange) (T)—The Sweet Syringa of the old fashioned gardens. Good sized white flowers produced in large quantities in May or June. Very fragrant.

2-3 ft. -----	\$0.50
3-4 ft. -----	.75
4-5 ft. -----	1.00

PHILADELPHUS, GRANDIFLORA (T)—A larger flowered variety but not fragrant.

3-4 ft. -----	\$0.75
4-5 ft. -----	1.00

PHILADELPHUS, LEMOINEI (M)—Graceful, slender, arching branches and showy white flowers.

2-3 ft. -----	\$0.75
---------------	--------

PHILADELPHUS, VIRGINAL (M)—The improved variety of philadelphus with semi-double, richly fragrant flowers. Following the main crop, a few flowers are on the bushes now and then during the entire summer.

2-3 ft. -----	\$0.75
3-4 ft. -----	1.00
4-5 ft. -----	1.25

POTENTILLA, FRUTICOSA (L)—A distinct low shrub. Cut foliage. Numerous showy yellow flowers throughout the entire summer. Sometimes called Cinquefoil.

1½-2 ft. -----	\$0.85
----------------	--------

PRIVET, GLOBE (Vulgaris)—A hardy compact shrub with dark rich green foliage. Trimmed in globe form for formal effect.

2-2½ ft. -----	\$1.75
----------------	--------

2½-3 ft. -----	2.50
----------------	------

Dug with ball of earth and roots burlapped.

PRIVET, REGAL (Ligustrum regelianum) (M)—Dense shrub with horizontal, spreading branches. Often used for group or specimen planting, but may be used for hedging as well.

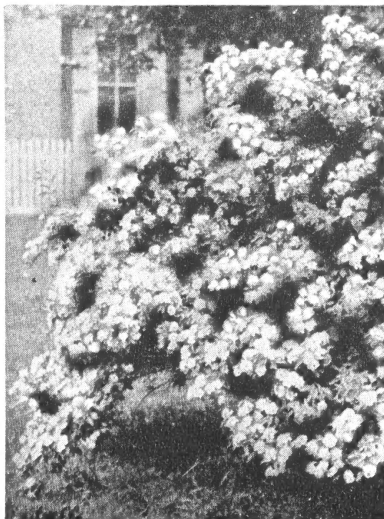

2-3 ft. -----	\$1.00
---------------	--------

3-4 ft. -----	1.25
---------------	------

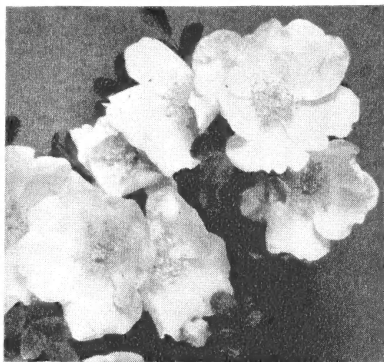

PRUNUS BESSEYI (Western Sand Cherry) (L)—A low spreading bush, profuse in flower and fruit. The foliage is beautifully colored in the fall and early winter.

2-3 ft. -----	\$1.00
---------------	--------

3-4 ft. -----	1.25
---------------	------

Philadelphus, Mock Orange

Rugosa Rose

PRUNUS, CISTENA (Hansen's Purple Leaved Plum) (T)—A Hansen hybrid from North Dakota with white flowers and black fruits. Very hardy and the fruit is edible.

2-3 ft. -----	\$1.00
3-4 ft. -----	1.50
4-5 ft. -----	2.00

PRUNUS, NEWPORT (Purple Leaved Plum) (T)—An improved purple leaved plum chiefly grown for its leaf color which makes a pleasing contrast with other green leaved plants.

4-5 ft. -----	\$1.75
5-6 ft. -----	2.00
6-7 ft. -----	2.50

Tree form

1 1/4-1 1/2 in. caliper --	3.50
----------------------------	------

PRUNUS, TRILOBA (Pink flowering Plum) (T)—An upright growing bush or small tree most interesting in May when the leaves and very double flowers, resembling so many roses, appear together.

2-3 ft. -----	\$1.00	3-4 ft. -----	\$1.50
---------------	--------	---------------	--------

RHAMNUS, FRANGULA (Glossy Buckthorn) (T)—Shrub or small tree attaining a height of 12 ft. Small green flowers in umbellate clusters. Red fruit, turning black when ripe. Often used for group plantings in large yards.

5-6 ft. -----	\$1.00	6-7 ft. -----	\$1.25
---------------	--------	---------------	--------

RUSSIAN OLIVE (Eleagnus, Angustifolia) (T)—Handsome silvery gray foliage. Although this variety grows too large for foundation planting, it makes an effective contrast in the shrub border or may be used for screening out objectionable views. Sometimes called Oleaster.

3-4 ft. -----	\$0.60	4-5 ft. -----	\$0.75
5-6 ft. -----			1.00

RUGOSA—SHRUB ROSES

See page 13 of catalog for Everblooming, Polyantha, and Climbing Roses.

Rugosa roses are entirely different from the hybrid teas and everblooming varieties, both in habit of growth and bloom. They are all tall-growing in comparison with other roses, and are attractive when planted with shrubs in the border, or they can be planted individually.

2-3 ft. -----	\$1.00	3-4 ft. -----	\$1.25
4-5 ft. -----			1.75

AGNES, RUGOSA—Double yellow Rugosa, fragrant, blooms early.

AUSTRIAN COPPER—Single flowers, deep orange red inside and yellow outside.

BELLE POITEVINE—Bright cerise pink. Clusters. Everblooming.

BLANDA—Soft pink flowers in clusters.

DR. ECKENER—Blooms resemble those of a hybrid-tea rose. Color similar to Talisman, buff and rose. Hardy.

DR. E. M. MILLS—Semi-double flowers of white shaded pink.

HANSA—Double reddish violet flowers of large size.

HARRISON'S YELLOW—Semi-double, moderately fragrant flowers of bright yellow.

HUGONIS—Light yellow flowers borne profusely along the branches.

PINK GROOTENDORST—Small bright pink flowers in clusters.

RUBRIFOLIA (Red-leaf Rose)—Bright pink, starry flowers; red foliage.

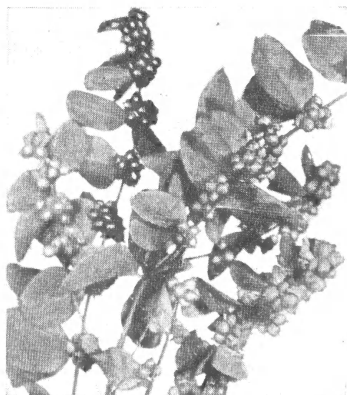

SETIGERA (Prairie Rose)—Large bright pink flowers, big clusters. Blooms late.

SHEPHERDIA, ARGENTEA (Buffalo Berry) (T)—Has silver gray foliage which contrasts well with the scarlet berries which appear in late summer and autumn. Hardy. Withstands extremes of cold and drought.

2-3 ft. -----	\$0.75
3-4 ft. -----	1.00

SNOWBERRY, RED (Symphoricarpos vulgaris) (L)—Sometimes called Coralberry; this shrub has long strings of dark red berries along the ends of the branches in the fall.

1 1/2-2 ft. -----	\$0.45
2-3 ft. -----	.60
3-4 ft. -----	.75

Snowberry, Red

SNOWBERRY, WHITE
(Symphoricarpus racemosus)
(L)—Large soft berries in clusters terminate the branches in the fall. Will grow in the shade and in poor soil.

1½-2 ft. -----	\$0.45
2-3 ft. -----	.60
3-4 ft. -----	.75

SPIREA, ANTHONY WATERER (L)—Flat clusters of rosy-purple flowers distinguish this dwarf variety. Never growing high, the plants can be placed before others to hide the bare spots or used beside paths.

1-1½ ft. -----	\$0.50
1½-2 ft. -----	.75

SPIREA, ARGUTA (Garland Spirea) (M)—A half dwarf type with masses of white flowers in May and June. Very fine.

2-3 ft. -----	\$0.75
3-4 ft. -----	1.00
4-5 ft. -----	1.25

Spirea, Sorbifolia

SPIREA, BILLARDI (S. lenneana) (L)—Blossoms in July and August and on into the fall. Pinkish lilac flowers are at the ends of the branches in long thin clusters.

2-3 ft. -----	\$0.60
3-4 ft. -----	.75
4-5 ft. -----	1.00

SPIREA, FROEBELI (Froebel S.) (L)—An earlier and somewhat larger growing form of Spirea Anthony Waterer, and more hardy in this locality.

1½-2 ft. -----	\$0.60
2-2½ ft. -----	.85
2½-3 ft. -----	1.00
3-3½ ft. -----	1.25
3½-4 ft. -----	1.50

SPIREA, OPULIFOLIA AUREA (Golden ninebark) (T)—This golden leaved Spirea is one of the varieties having flowers in little clusters. Creamy-white flowers are followed with red seed pods. Tall growing.

4-5 ft. -----	\$1.00
5-6 ft. -----	1.25

SPIREA, PRUNIFOLIA (Double Bridal Wreath) (M)—The old fashioned Bridal Wreath with thousands of tight little double flowers close against the stems in the early spring, like snow garlands. Leaves turn orange in the fall.

2-3 ft. -----	\$0.85
3-4 ft. -----	1.25

Spirea, Billardi

SPIREA, REEVESIANA (S. cantoniensis) (M)—A slightly drooping shrub, with clusters of white flowers in May. Has small, thin leaves which last well into the winter.

2-3 ft. -----	\$0.75
3-4 ft. -----	1.00

SPIREA, SORBIFOLIA (Sorbaria or False Spirea) (M)—A tall growing variety with cut leaves and huge clusters of white flowers in mid-summer.

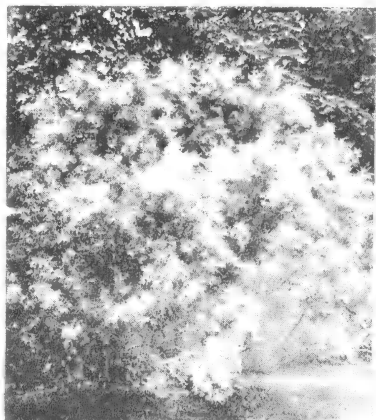

2-3 ft. -----	\$0.75
3-4 ft. -----	1.00
4-5 ft. -----	1.25

SPIREA, THUNBERGI (Snow Garland) (M)—Earliest blooming spirea. These shrubs are a mass of white before the leaves appear. Plant in a well drained location.

2-3 ft. -----	\$0.60
3-4 ft. -----	.85

SPIREA, TRICHOCARPA (Korean Bridal Wreath) (M)—Similar to Spirea, Van Houtte but blooms a little later and flowers are larger.

2-3 ft. -----	\$0.75
3-4 ft. -----	1.00

Tamarix, Hispida

SPIREA, VAN HOUTTE (Bridal Wreath) (M)—The best and justly most popular of them all. The white flower clusters studding the drooping branches give us a fountain of white in May. Cannot be surpassed for hedging.

1½-2 ft.	-----	\$0.35
2-3 ft.	-----	.50
3-4 ft.	-----	.75
4-5 ft.	-----	1.00
5-6 ft.	-----	1.25
5-6 ft. heavy	-----	1.50

SUMAC, FERN LEAF (Rhus typhina laciniata) (T)—A fine type of Sumac with incised leaflets. The leaves are large and tropical-like and turn brilliant colors in the fall.

2-3 ft.	-----	\$0.60
3-4 ft.	-----	.75
4-5 ft.	-----	1.00
5-6 ft.	-----	1.50

SUMAC, STAGHORN (Rhus typhina) (T)—Grown for its bright red fruit clusters and the orange and scarlet fall coloring. It is very valuable as a background shrub, particularly in corners.

2-3 ft.	-----	\$0.50
3-4 ft.	-----	.60
4-5 ft.	-----	.75
5-6 ft.	-----	1.00

TAMARIX, HISPIDA (T)—Lacy silver foliage. Branches covered in July and August with light rosy carmine flowers that are very feathery. To keep the plant from growing too woody, cut it back to the ground each spring.

3-4 ft.	-----	\$0.75
4-5 ft.	-----	1.00
5-6 ft.	-----	1.25

VIBURNUM DENTATUM (Arrowwood) (T)—Bushy habit of growth. Large, light green, rough leaves. Has cream-white flowers in May and June, borne in large flat sprays, followed in winter with a mass of blue-black berries. Excellent for background planting. Is very hardy, but prefers a sunny location.

2-3 ft.	-----	\$1.00
3-4 ft.	-----	1.25
4-5 ft.	-----	1.50

VIBURNUM, LANTANA (Wayfaring Tree) (T)—A large, strong shrub, with wrinkled leaves, dark green above but downy beneath. Creamy flowers are followed with clusters of red berries which later turn black.

2-3 ft.	-----	\$1.00
3-4 ft.	-----	1.25
4-5 ft.	-----	\$1.50

VIBURNUM LENTAGO (Nannyberry) (T)—Another variety with thin, leathery leaves which turn very bright fall colors. Berries black.

3-4 ft.	-----	\$1.25
4-5 ft.	-----	1.50

VIBURNUM, OPULUS (Highbush Cranberry) (T)—White flower clusters are succeeded by scarlet berries which often stay on until the following spring.

2-3 ft.	-----	\$1.00
3-4 ft.	-----	1.25

VIBURNUM OPULUS STERILIS (Snowball) (T)—The Common Snowball, is known over the world for its glistening white, round flower clusters. Very hardy.

2-3 ft.	-----	\$1.00
3-4 ft.	-----	1.25

WILLOW, BLUESTEM PUSSY (Salix irrorata) (T)—This shrub is unusual because the branches have a distinct silvery blue color. Supplies interesting contrast in the shrub border. Densely flowered with dainty "pussies" in early spring. Native Colorado variety.

2-3 ft.	-----	\$0.60
---------	-------	--------

Sumac, Staghorn

CLIMBING VINES

VINES are planted not only for their beautiful flowers or foliage, but also for screening or to give an air of privacy and seclusion. Such varieties as Englemann or Boston Ivy which cling to the brick, and cover extensively, help to keep the house cooler in summer.

AMPELOPSIS ENGELMANNI (Engelmann Creeper)—Engelmann's Ivy is a form of the Virginia Creeper with large leaves that turn brilliant scarlet in the fall. Fine for walls as it is self clinging and very hardy.

2 yr. plants 50c ea., \$5.00 per doz.

3 yr. plants 75c ea., \$7.50 per doz.

AMPELOPSIS VEITCHI (Boston Ivy)—Is noted for its small glossy leaves and the fact that it clings to any wall. Fall colors are fine and blue berries persist during the winter. Plant on north or east exposures.

2 yr. plants 60c ea., \$6.00 per doz.

3 yr. plants 85c ea., \$8.50 per doz.

ARISTOLOCHIA, SIPHO (Dutchman's Pipe)—Is much used on wires to shade porches. The flowers are very odd, resembling Dutch tobacco pipes.

2 yr. plants ----- \$1.25

BIGNONIA, RADICANS (Trumpet Vine)—The Trumpet Vine has large, orange-scarlet, trumpet shaped flowers which appear in July and August.

2 yr. plants ----- 50c each, \$5.00 per doz.

3 yr. plants ----- 75c each, \$7.50 per doz.

BITTERSWEET, AMERICAN (Celastrus scandens)—Affords very attractive fall fruit, useful for decorations.

2 yr. plants ----- 75c each, \$7.50 per doz.

3 yr. plants ----- \$1.00 each, \$10.00 per doz.

CLEMATIS—LARGE FLOWERING VARIETIES

The most showy flowering vines for this locality. Previously we offered only the purple clematis, but now have other colors as well.

DUCHESS OF EDINBURG—Lovely white variety. Double flowers.

JACKMANI—Large velvety dark purple. Blooms profusely.

MME. EDOUARD ANDRE—Purplish red.

MME. BARON VAILLARD—Lilac Rose.

RAMONA—Clear lavender-blue. Pointed buds.

2 yr. in large containers ----- \$1.35 each

In the variety, Jackmani, we also offer 2 yr. medium grade, in containers, \$1.00 each. The two-year plants in large containers at \$1.35 are superior to the others not only because they are larger plants, but also because they are acclimatized.

Our Clematis are guaranteed. The \$1.35 size vines were blooming profusely last summer.

CLEMATIS, PANICULATA (Sweet Autumn Clematis)—This variety has small flowers produced in great masses in later summer. Very sweet scented.

2 yr. field grown plants ----- 50c each, \$5.00 per doz.

HONEYSUCKLE, GOLD FLAME—Immense clusters of trumpet shaped blooms; brilliant pink outside, lined with golden yellow. Blooms all summer. Foliage is glossy, dark green.

Number 1 plants

----- \$1.20 each

HONEYSUCKLE, HALLEANA (Hall's Honeysuckle) — Flowers open white, changing to buff. Very fragrant. Blooms constantly.

2 yr. plants 50c each,

\$5.00 per dozen.

3 yr. plants 75c each,

\$7.50 per dozen.

HONEYSUCKLE, SCARLET TRUMPET (Sempervirens) — Not so floriferous, but the flowers are bright scarlet and very showy.

2 yr. plants 50c each,

\$5.00 per doz.

3 yr. plants 75c each,

\$7.50 per doz.

Bignonia, Radicans
(Trumpet Vine)

Large Flowering Clematis

POLYGONUM, AUBERTI (China Fleecevine)—Silver Lace Vine must be seen to be appreciated. Strong growing, with glossy green leaves, and foamy masses of silvery white flowers, it is very pleasing during the whole season.

2 yr. small size -----\$0.75 each
3 yr. large plants ----- 1.00 each

WISTERIA, FRUTESCENS (American Wisteria)—Flowers of lilac purple color in long clusters.

2 yr. plants ----- \$0.75 each
3 yr. large plants ----- 1.00 each

HEDGES

For Beauty, Privacy, and Protection

Plant a Hedge Where You Need a Fence

The cheapest wall or fence is the living hedge. It does not have to be painted. It gives itself a new coat every year and will effectively screen out views or shut out trespassers.

To determine how many privet hedge plants you need, just measure the length of your hedge space in feet and multiply by one and one-half. For example 100 feet of space will take 150 plants. Russian Olive and Barberry generally planted one foot or more apart.

CYDONIA, JAPONICA (Japanese flowering quince)—These shrubs with handsome glossy foliage are highly decorative and especially adapted for borders and ornamental hedges. In the spring they have waxy coral-red blossoms which are very showy. They thrive in almost any soil, but bloom more abundantly in sunny positions.

	Per 25	Per 100
12-15 inch -----	\$6.00	\$20.00
15-18 inch -----	7.50	25.00
18-24 inch -----	10.00	35.00

PRIVET, AMUR RIVER—Hardy for Northern climates. It is similar in form and habit to the well known California type; the foliage is not quite so glossy, but safest to plant in cold climates.

	Per 25	per 100	per 1000
1 1/2-2 ft. -----	\$3.75	\$13.00	\$120.00
2-3 ft. -----	5.00	18.00	170.00

PRIVET, ENGLISH (Vulgaris)—The hardiest and best hedge for this section. A darker and richer green foliage than the Amur River Privet, branching compactly from the ground.

	Per 25	Per 100	Per 1000
6-12 inch -----	\$3.25	\$12.00	
1-1 1/2 ft. -----	4.00	15.00	\$120.00
1 1/2-2 ft. -----	6.00	20.00	160.00

3-4 ft. -----	9.00	32.00	270.00
4-5 ft. -----	11.00	40.00	350.00

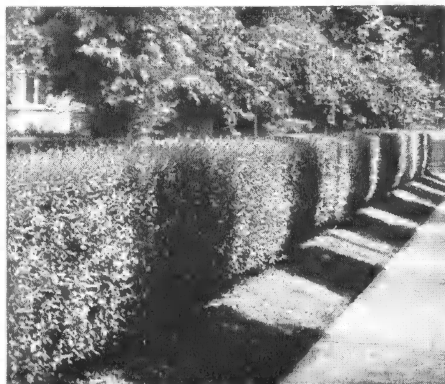

RUSSIAN OLIVE (Eleagnus angustifolia)—May be planted in rather dry positions and is especially suitable for large country estates and farms. May be trimmed, but is too coarse for formal effects.

	Per 25	Per 100	Per 1000
1 1/2-2 ft. -----	\$3.00	\$11.00	\$100.00
2-3 ft. -----	4.50	16.00	150.00
3-4 ft. -----	5.50	20.00	190.00
4-5 ft. -----	7.00	25.00	245.00
5-6 ft. -----	10.00	35.00	

WINDBREAK STOCK — Heavy rooted, well-branched stocky Chinese Elm Seedlings which are excellent for planting as windbreaks. The Chinese Elm resists drought, thrives on poor soil, and grows rapidly.

1-1 1/2 ft.	
Per 25 -----	\$0.75
Per 100 -----	2.50
2-3 ft.	
Per 25 -----	\$1.50
Per 100 -----	4.80

We offer the very best service available in tree trimming.

English Privet (Vulgaris)

SELECTED ROSES

For Colorful Blooms This Summer

We offer only the two highest grades of roses, because those that have made greatest growth are naturally the most vigorous. It is also our policy to have for sale only those varieties which we know to be hardy in this climate.

Our roses are sent to us direct from the West Coast's leading rose grower. Properly dug, handled, and shipped in temperature conditioned cars, they arrive here fresh and full of life—ready to resume growth and produce blooms.

Rose Planting and Care: Dormant roses should be planted in the spring. We keep them in our cool, moist storage cellar so that they are in good condition for planting during a longer period of time.

Roses should be planted 16 inches apart each way. A bed for 12 roses will be three rows, four in a row. This requires a bed 42 inches wide and 72 inches long. Twenty-five roses will require a bed 42 inches wide and 144 inches or 12 feet long.

Roses like well-drained, rich soil, and need plenty of food to produce flowers. Plant your roses about one inch deeper than they were in the nursery. The soil should be enriched with fertilizer during the spring and summer to secure an abundance of blooms.

In Colorado and nearby states, bush roses need winter protection so we suggest that you mound up about 6 inches of soil around each plant and cover with leaves or straw in the fall.

HYBRID TEA - - EVERBLOOMING

Largest 2 year No. 1 Field Grown 75c each, \$7.50 per doz.

2 year Medium Standard Grade 50c each, \$5.00 per doz.

PINK VARIETIES

BRIARCLIFF—Beautifully shaped blooms of rose pink.

COLUMBIA—Long stemmed, pointed flowers of vivid pink. Very fragrant.

NAME EDITH HELEN—Large full blooms of glowing pink.

EDITOR McFARLAND—Shapely buds. Brilliant pink blooms.

LEONARD BARRON—Light salmon and shell pink suffused with pale copper.

MME. BUTTERFLY—Flowers of soft pink, tinted yellow at base of petals. Free flowering. Highly scented.

RADIANCE, PINK—Brilliant rose pink. Hardy.

RED VARIETIES

AMI QUINARD—Crimson-maroon. Almost as black as Nigrette. Fragrant.

AMERICAN BEAUTY—Deep pink, shaded soft carmine. This is a hybrid perpetual rose and somewhat taller growing than the hybrid teas.

CATALONIA—Strikingly brilliant. Orange vermilion.

E. G. HILL—Dazzling scarlet.

ETOILE DE HOLLANDE—Dark, velvety red with fine fragrance.

FRANCIS SCOTT KEY—Extremely large, very double, rich crimson.

GRENOBLE—Striking scarlet-crimson. Beautifully shaped.

GRUSS AN TEPLITZ—Medium sized dark scarlet. Velvety petals. Hardy.

HADLEY—Deep velvety crimson.

MARGARET McGREDY—Full blooms of orange-scarlet.

RED RADIANCE—Crimson. Probably the best all around red rose.

RENSATION—Extremely double; rich dark crimson. Fragrant.

SYRACUSE—Bright scarlet crimson.

TWO-TONE VARIETIES

AUTUMN—Burnt orange, streaked and marked with red. Fragrant.

BETTY UPRICHARD—Salmon pink, shaded with orange-carmine on outer surface of petals.

CONDESA DE SASTAGO—Brilliant bi-colored Spanish rose. Petals glowing orange-scarlet on the inside and intensely bright yellow on the outside.

DUQUESA DE PENARANDA—Unusual color of orange-apricot with deeper coppery tones.

Los Angeles

EDITH NELLIE PERKINS—Beautifully formed blooms of salmon color shaded with light cerise.

HINRICH GAEDE—Bright vermilion, toned gold. Rich, honey-sweet fragrance.

JOANNA HILL—Deep creamy yellow, shaded bronzy pink in center. Although not brilliant, it is dainty and lovely.

LOS ANGELES—Long stemmed flowers. Luminous pink, toned with coral and shaded with gold at the base.

Mrs. G. A. VAN ROSSEM—Orange-brown, well formed blooms. Pleasant fragrance.

MME. EDOUARD HERRIOT—Coral-red toned yellow at base.

MME. JOSEPH PERRAUD—Shades from shell-pink at edges to buff and orange in center. Long stemmed blooms.

MRS. HENRY BOWLES—High-centered flowers of rosy pink shaded salmon. Blooms profusely.

PRES. HERBERT HOOVER—Rich orange and gold.

SENORA GARI—Orange buds. Full, fragrant blooms of apricot rose.

TALISMAN—Glowing golden yellow, stained with rose and orange shading.

YELLOW VARIETIES

LADY MARGARET STEWART—Large, double. Rich yellow marked with orange-red.

MAX KRAUSE—High centered blooms. Very double, golden yellow.

MRS. E. P. THOM—Unfading canary yellow.

MRS. PIERRE S. DUPONT—Golden yellow with a light tint of orange in the very center. Its fragrance is spicy. Excellent for cutting.

ROSLYN—Vigorous grower. Deep golden yellow.

SISTER THERESE—Long slender perfect buds of deep yellow.

SOUVENIR DE CLAUDIUS PERNET—Beautiful long buds and blooms of lasting rich yellow.

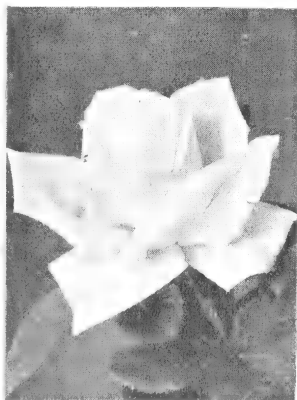

WHITE VARIETIES

CALEDONIA—Large full lasting flowers.

K. A. VICTORIA—Soft pearly-white, tinted with just a touch of lemon color in the center.

MCGREDY'S IVORY—Ivory white. Sweet scented.

MME. JULES BOUCHE—White with blush tints in center.

Mrs. Pierre S. Dupont

POLYANTHA FLORIBUNDA

These dwarf roses are excellent for borders or for planting in front of shrubs.

2 yr. No. 1, 75c each

CAMEO—Soft salmon pink suffused with gold. Blooms continuously.

CECILE BRUNNER—The "Sweetheart Rose". Dainty, clear pink flowers which are surprisingly fragrant.

ELSE POULSEN—Taller growing. Two-tone rose-pink.

GEORGE ELGER—Very double golden yellow flowers in large clusters.

GLORIA MUNDI—Bright orange-scarlet. Low growing.

GOLDEN SALMON—Bright orange-salmon. Fine for mass planting. Blooms continually.

IMPROVED LAFAYETTE—Deep glowing crimson. Vigorous grower.

RUGOSA—SHRUB ROSES

Rugosa and miscellaneous varieties listed under shrubs. See page 8 of catalog.

PATENTED ROSES

Price: \$1.00 each

BLAZE (Pat. No. 10) Climber, bright scarlet, everblooming.

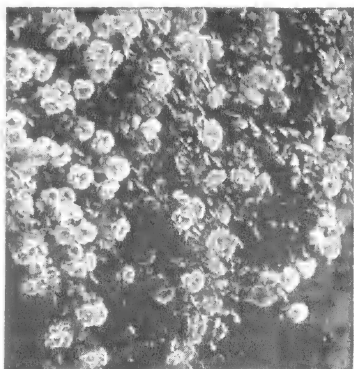

COUNTESS VANDAL (Pat. No. 38). Bush rose. Blend of pink, copper and gold.

SIGNORA (Pat. No. 201). Bush rose. Tall growing. Warm burnt sienna.

WILL ROGERS (Pat. No. 256). Dark velvety crimson maroon. Everblooming bush rose.

CLIMBING ROSES

Largest 2 yr. No. 1 Field Grown, 65c each, \$6.50 per doz.
2 yr. Medium Standard Grade 50c each, \$5.00 per doz.

Dorothy Perkins

RED VARIETIES

CLIMBING AMERICAN BEAUTY—Flowers rich red to crimson.

CRIMSON RAMBLER — Small scarlet flowers in large clusters. Hardy.

EXCELSA — Double scarlet-crimson blooms in large clusters.

FLOWER OF FAIRFIELD —Dazzling scarlet flowers, borne in large sprays. Blooms longer than most varieties.

PAUL'S SCARLET — The most popular of all climbing roses. Flowers are of vivid scarlet, of large size and are produced in clusters.

PINK VARIETIES

DOROTHY PERKINS—Beautiful miniature flowers of brilliant shell-pink in large clusters.

DR. W. VAN FLEET—Pale pink buds borne on long stems.

MARY WALLACE—Large rose-pink, semi-double flowers. Fragrant.

MME. G. STAECHLIN—Vigorous climber with perfumed flowers of pale pink.

WHITE VARIETIES

WHITE DOROTHY PERKINS—Small double flowers of creamy white in great clusters.

SILVER MOON—Large buds, creamy white flowers, semi-double, in small sprays.

YELLOW VARIETIES

PRIMROSE—Medium sized blooms of canary yellow. Hardy.

YARD AND GARDEN FERTILIZERS AND MULCHES

DAIRY FERTILIZER, PULVERIZED—Most commonly used complete fertilizer for roses, perennials, shrubbery and lawns. Per bag, 45c; Per cubic yard, delivered in bulk, \$2.25.

SUEDE FERTILIZER, PULVERIZED—Contains nitrogen, phosphoric acid and potash. Should always be used in smaller amounts than other fertilizers. Per bag, 75c; Per cubic yard, delivered in bulk, \$2.75.

WEEDLESS LAWN FERTILIZER—For use as a mulch or top dressing for lawns. Per bag, 50c; Per cubic yard, delivered in bulk, \$2.50.

HORTICULTURAL PEAT MOSS—It is a good soil conditioner and valuable for its porous, moisture-holding qualities. Excellent as a mulch. Per sack, 75c. Per bale, \$3.00. Per cubic yard, delivered in bulk, \$3.15.

GREEN MEADOWS PLANT FOOD

Stimulates a Vigorous, Healthy Growth
For Lawns, Gardens, Flowers, Shrubs

A commercial fertilizer containing nitrogen, phosphate and potash.

Your plants will not make the desired growth if the soil is deficient in some of the necessary elements. We have carefully checked the analysis of Green Meadows Plant Food and can unhesitatingly recommend it as an effective commercial fertilizer.

TREES For Shade and Beauty

WHERE TO PLANT YOUR TREES

THE front yard should be open and inviting. There should be an illusion of spaciousness which can be created by simple planting, and the proper selection and spacing of the lawn or parking trees. If the house is low or the front lawn plot limited, it is advisable to select varieties of trees which will not become extremely large in time, or varieties which can, by corrective trimming, be kept from growing too tall. Generally, front lawn trees should be spaced rather far apart to frame the house rather than obliterate it from view. Occasionally, there are exceptions to this rule. These exceptions occur when it is advisable to plant trees for the purpose of accentuating certain features of the house.

The way to call attention to one feature is to subordinate another. For example, if you wish to call attention to the part of the house to the right of the entrance door for some architectural reason, you may subordinate the left side by planting before it a tree which will partially conceal the left side from view. If there is a wing of the house which seems too prominent, it can be "pushed back" by the proper placement of a tree which will partly blot it from sight.

The trees to be planted in other parts of the yard should be considered with their relation to the appearance of the house from the street and from the front yard area. Aside from the purpose of shade, there should be trees back of the house to serve as a background for it. Without the trees as a background, the picture of the house from the street usually lacks depth, and the house does not seem entirely to be in harmony with its setting.

Except for parking and alley screen planting, it is almost always advisable to avoid straight lines in tree placement. Group planting or irregular placing of trees makes for a more natural effect. On larger estates the planting of groups of trees of one variety is to be recommended.

One of the more important considerations in the placing of trees is that of shade. A little investigation on a sunny day is very helpful in determining the location of trees. It is easy then to tell just where the shadows fall. In fact, you could even figure out roughly by ratio and proportion how much shaded area you would have as the result of planting a tree of any given height and spread.

Shade and Ornamental Trees

ASH, GREEN—Especially valuable for planting in high altitudes and dry cold climates.

5-6 ft.-----	\$1.00	8-10 ft. -----	\$1.75
6-8 ft.-----	1.35	1 ¼-1 ½ inch -----	2.50

BIRCH, CUT LEAF WEEPING (*Betula Laciniata*)—A beautiful white barked tree with long slender drooping branches and fern-like leaves. Plant as specimens, preferably between the house and some evergreens, so that you get the full winter effect.

5-6 ft.-----	\$2.50	8-10 ft. -----	\$4.50
6-8 ft.-----	3.50	1 ¼-1 ½ inch -----	6.00

GUARANTEED PLANTS AND SATISFACTION

CATALPA, HUNGEI (Umbrella Catalpa)—The Umbrella Tree has its place beside the walks, at the front steps, at the bottoms of terraces, etc. Cut the head back each year to keep it bushy and healthy.

4-5 ft., 2 yr. heads	\$2.50
5-6 ft., 2 yr. heads	3.50

CATALPA, SPECIOSA (Western C.)—Rapid grower. Has large leaves, and large white flowers followed by long seed pods.

6-8 ft.	\$1.25
1 1/4-1 1/2 inch	1.75
1 1/2-2 inch	2.50

CRAS, BECHTEL (Malus)—A small tree blooming early in the spring. Has a multitude of pink, very double and very sweet flowers that remind one of little roses.

1 1/2-2 ft.	\$1.00
2-3 ft.	1.50
3-4 ft.	2.00
4-5 ft.	3.00

CRAB, HOPA—Similar to Bechtel Crab, but taller growing. Blossoms are cerise-red in color.

5-6 ft.	\$2.75
6-8 ft.	3.50
8-10 ft.	4.50
10-12 ft.	6.00

CRATAEGUS, COCCINEA—Shrubby tree which is excellent for ornamental plantings. Grows to a height of about 15 ft. Bears white flowers, followed by dull red fruit. Colors up beautifully in the fall.

2-3 ft.	\$1.25
3-4 ft.	1.75
4-5 ft.	2.25

CRATAEGUS, OXYCANTHA PAULII (Paul's Scarlet Thorn)—A showy variety with double, bright scarlet flowers. If you are looking for a beautiful ornamental tree which is not common in Colorado, this variety should please you. It has a shrubby habit of growth; does not grow taller than 15 feet.

5-6 ft.	\$6.00	6-8 ft.	\$8.00
---------	--------	---------	--------

ELM, AMERICAN WHITE (Ulmus Americana)—Probably the most characteristic American Tree covering the country from New England to Florida and west to the Rocky Mountains. The beautiful vase or umbrella shape has made it a favorite for lawn, park and road-side plantings.

6-8 ft.	\$1.25
8-10 ft.	1.75
1 1/4-1 1/2 inch	2.50
1 1/2-1 3/4 inch	3.50
1 3/4-2 inch	4.50
2-2 1/2 inch	5.50

ELM, CHINESE (Ulmus pumila) — The Chinese Elm is of recent introduction from China, but because of its quick growth and its vitality in spite of dry land conditions, it has found a place for itself in the country east of the Mountains from north to south. Even a small tree will give you shade in a few years.

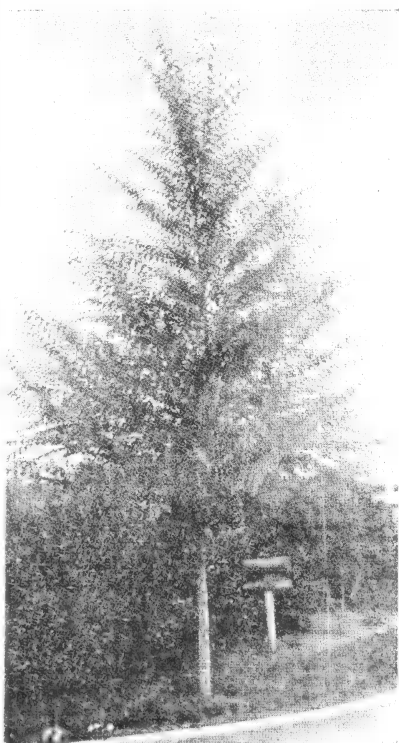

Light grade trees

	In lots of 100,	each
4-5 ft.	\$0.35	\$0.25
5-6 ft.	.50	.40

Standard Grade Trees

	In lots of 10,	each

2 1/2-3 in.	5.50	5.00
3-3 1/2 in.	7.50	7.00
3 1/2-4 in.	10.00	9.50

Prices on larger sizes up to 8 in. caliper on request.

Chinese Elm

WACHSBERG (*Celtis occidentalis*)—A fine tree that deserves to be planted more. One of the few large trees that bear edible berries, which are much liked by the birds.

6-8 ft. -----	\$1.50
8-10 ft. -----	2.00
1 1/4-1 1/2 inch -----	2.75
1 1/2-2 inch -----	3.50
2-2 1/2 inch -----	5.00

Also larger sizes.

KOELREUTERIA, PANICULATA (Goldenrain Tree)—Somewhat similar to sumac in habit of growth. Yellow flowers in large panicles during summer are followed by exceptionally showy clusters of green seed pods.

1 1/2-2 inch -----	\$3.00
--------------------	--------

LINDEN, EUROPEAN (*Tilia, europaea*)—Has a sturdy habit of growth, and the leaves are shiny and clean looking. Attractive specimen tree for lawn planting. Sometimes called German Linden.

6-8 ft. -----	\$3.00
1 1/2-2 inch -----	5.00
2-2 1/2 inch -----	6.00

LOCUST, HONEY (*Gleditsia triacanthos*)—A long-lived hardy tree, but rather slow growing. The bark is dark gray, smooth and the branches thorny. The bright green, finely divided foliage turns clear yellow in the fall.

5-6 ft. -----	\$1.25
6-8 ft. -----	1.75

MAPLE, REDLEAF (*Schwedleri*)—Popular because of its bright reddish-purple leaves in the spring.

5-6 ft. -----	\$2.00
6-8 ft. -----	3.00
8-10 ft. -----	4.00

MAPLE, SOFT OR SILVER LEAVED (*Acer, dasycarpum*)—A graceful ornamental and shade tree with smooth, light gray bark. The leaves are green above and rather silvery beneath. Hardy and fast growing.

6-8 ft. -----	\$1.50
8-10 ft. -----	2.00
1 1/4-1 1/2 inch -----	2.75
1 1/2-2 inch -----	3.50
2-2 1/2 inch -----	4.50
2 1/2-3 inch -----	6.00
3-3 1/2 inch -----	7.50
3 1/2-4 inch -----	9.50
4-4 1/2 inch -----	12.00

Also larger sizes.

MOUNTAIN ASH, EUROPEAN (*Sorbus aucuparia*)—A fine small tree with clusters of white flowers in the spring and brilliant clumps of orange-red berries in the fall which hang well into the winter. Use as a specimen where you can see the effect.

6-8 ft. -----	\$2.50
8-10 ft. -----	3.50

MULBERRY, TEA'S WEeping (*Morus, alba pendula*)—A weeping form of the Russian Mulberry; attractive leaves; forms a perfect umbrella with the branches falling to the ground.

1 1/2-5 ft. -----	\$4.50
6 ft. -----	7.00

OAKS (*Quercus*) Red or Burr Oak—Stately trees of majestic habit, with stout spreading branches. The beautifully cut leaves turn brilliant colors in the fall, and the acorns are interesting.

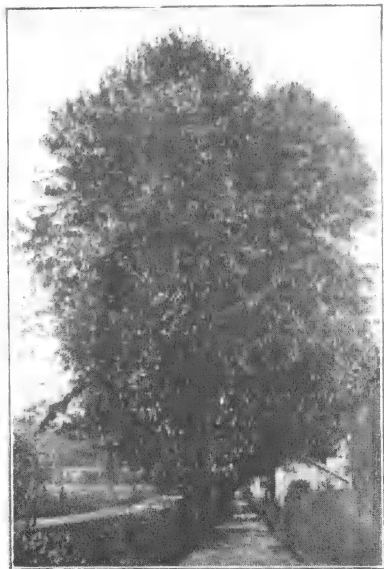

5-6 ft. -----	\$3.00
6-8 ft. -----	4.00
1 1/2-1 3/4 inch -----	8.50
1 3/4-2 inch -----	10.00
2-2 1/2 inch -----	14.00
2 1/2-3 inch -----	18.00

POPLAR, BOLLEANA—Upright growing screen or accent tree, leaves glossy green above silvery below.

	Each	In lots of 10, each
5-6 ft. -----	\$1.00	\$0.85
6-8 ft. -----	1.25	1.10
8-10 ft. -----	1.75	1.50
1 1/4-1 1/2 inch -----	2.25	2.00

Niobe Weeping Willow

EVERY WEEK—Big money saving specials. Each week during the spring planting season we will have a special sale on several items. Come to the nursery and see what we have to offer.

EVERGREENS

for YEAR 'ROUND ENJOYMENT

DURING the past few years there has been an ever increasing trend toward using more evergreens both in foundation and lawn planting. The foremost reason for this trend is that evergreens offer more beauty during the entire year than any other trees or shrubs. Then, too, they offer so much variation in habits of growth, shading and foliage textures; and many of them have ornamental cones or berries.

Unlike other kinds of trees and shrubs, evergreens must be dug with a large ball of earth or they will not survive; in other words, they must be moved in the soil they grew in.

To correctly dig an evergreen with a ball of earth takes both time and skill. The ball must be made large so as to not to cut off the feeding roots and care must be taken not to crack it or loosen the soil. After digging, this ball of dirt is securely wrapped in burlap to keep in the moisture and hold the soil intact.

When evergreens are dug and planted scientifically and given proper after-care, there is very little chance of loss. All of our prices on evergreens include digging with ball of earth and burlapping.

In choosing evergreens for foundation planting, it is best to use medium and dwarf growers for permanent effects. Plant the taller varieties at the corners, at points in the foundation where there are no windows or, in some cases, on each side of the entrance. Plant dwarf growers under low windows or wherever low plantings are desired.

Between groups of evergreens, flowering shrubs may be planted to add variety and color.

This list of evergreens classified according to type will assist you in your selections.

GROUP I

The evergreens in this group are alike only in their general shape or outline. Each has its own characteristics. Most of these varieties are adaptable for specimen plantings on the lawn, massing in groups or for screen plantings.

FIR, Concolor; **PINE**, Austrian; **PINE**, Pinyon; **SPRUCE**, Black Hill; **SPRUCE**, Colorado Blue; **SPRUCE**, Colorado Green.

GROUP II

Medium height growers, suitable for backgrounds and foundation planting. They are useful to give height at corners

and accent at each side of a doorway, or gateway.

JUNIPER, Chinese; **JUNIPER**, Scopulorum; **JUNIPER**, Virginiana.

GROUP III

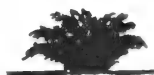

Round or globular varieties. Useful for foundation planting, either by themselves or in front of taller growing varieties.

JUNIPER, Virginiana Globe; **JUNIPER**, Scopulorum Globe; **PINE**, Mugho.

GROUP IV

Creeping Junipers are at home on slopes where they can spread out at will or wherever a low carpet of evergreen foliage is desirable.

JUNIPER, Savin; **JUNIPER**, Andorra; **JUNIPER**, Canadensis; **JUNIPER**, Pfitzeriana; **JUNIPER**, Sabina Tamariscifolia.

FIR, CONCOLOR (Abies Concolor)—A very fine native Colorado mountain tree, much planted for its gray green color. Withstands heat and drought better than many.

2-3 ft.	-----	\$4.50
3-4 ft.	-----	6.75
4-5 ft.	-----	9.00
5-6 ft.	-----	11.00
6-7 ft.	-----	13.50

JUNIPER, ANDORRA (Juniperus communis depressa plumosa) (Prostrate)—Low spreading variety. Unusual because it takes on a pink or purple hue after the first fall frost. Contrasts well with other evergreens for winter effect. Should be planted in the spring as it does not withstand fall transplanting very well.

1-1½ ft. spread	-----	\$3.75
1½-2 ft. spread	-----	4.50
2-2½ ft. spread	-----	5.50
2½-3 ft. spread	-----	6.50

JUNIPER, CANADENSIS (Prostrate)—Of spreading habit and vigorous growth; gray-green foliage.

1½-2 ft. spread	-----	\$3.75
2-3 ft. spread	-----	5.00
3-3½ ft. spread	-----	6.50

JUNIPER, CANNARTI (Cannart Redcedar)—An upright variety with heavy dark green foliage. It is symmetrical, but inclined to be branchy in its habits of growth. Similar to Juniper, Virginia Glauc except that the color is different.

1-1½ ft.	-----	\$2.50
1½-2 ft.	-----	3.50
2-3 ft.	-----	5.00

JUNIPER, MONOSPERMA (Cherrystone Juniper)—This evergreen is very useful in border plantings as it is pyramidal in form and is dwarf.

1½-2 ft.	-----	\$3.00	2-3 ft.	-----	\$4.00
----------	-------	--------	---------	-------	--------

JUNIPER, PFITZERIANA—A grayish-green, soft needled variety the foliage of which resembles plumes. Low, spreading, and irregularly shaped.

1-1½ ft. spread	-----	\$2.75
1½-2 ft. spread	-----	4.00
2-2½ ft. spread	-----	5.50
2½-3 ft. spread	-----	6.50
3-4 ft. spread	-----	8.00
4-5 ft. spread	-----	10.00

JUNIPER, SAVIN (J. sabina)—A spreading form with slender branches and dark green foliage. Excellent for foundation work and for underplanting.

1-1½ ft. spread	-----	\$2.50
1½-2 ft. spread	-----	3.50
2-2½ ft. spread	-----	5.00
2½-3 ft. spread	-----	6.00
3-4 ft. spread	-----	7.50
4-5 ft. spread	-----	9.50

JUNIPER, SABINA, TAMARISCIFOLIA—Dwarf spreading type. The foliage is silvery green with soft textures.

1-1½ ft. spread	-----	\$2.75
1½-2 ft. spread	-----	4.50
2-2½ ft. spread	-----	6.00
2½-3 ft. spread	-----	7.50
3-3½ ft. spread	-----	9.00

TOLLESON NURSERIES

JUNIPER, SCOPULORUM (Silver Cedar)—The Colorado Silver Juniper is pyramidal, narrow, compact, and symmetrical, with only one stem. Stands drought unusually well.

1½-2 ft. -----	\$3.00	6-7 ft. -----	\$13.00
2-3 ft. -----	4.00	7-8 ft. -----	15.75
3-4 ft. -----	6.00	8-9 ft. -----	18.00
4-5 ft. -----	8.00	9-10 ft. -----	21.00
5-6 ft. -----	10.00	10-11 ft. -----	24.50
11-12 ft. -----			28.00

Larger sizes available.

JUNIPER SCOPULORUM GLOBE—Silver ball-shaped cedars, useful for formal effects.

12-15 inch spread -----	\$3.50	1½-2 ft. spread -----	\$6.00
15-18 inch spread -----	4.50	2-2½ ft. spread -----	8.00
2½-3 ft. spread -----			10.00

JUNIPER, SCOPULORUM, TOLLESON'S GRAFTED—Special types of Juniper scopulorum selected by G. A. Tolleson and propagated by means of grafting. \$3.00 per foot. We have these in very limited quantities only.

JUNIPER, VIRGINIANA GLAUCA (Silver Redcedar)—A very vigorous variety with silvery blue foliage. This is one of the most beautiful forms of the Red Cedar, and makes a splendid specimen tree.

1½-2 ft. -----	\$3.75	4-5 ft. -----	\$10.00
2-3 ft. -----	5.00	5-6 ft. -----	12.75
3-4 ft. -----	7.50		

PINE, MUGHO (*P. montana mughus*)—A dwarf, roundish pine that is much planted where height is not wanted. Very pretty in the spring when the "candles" which will be the current year's growth are forming.

15-18 inch spread -----	\$3.50	2-2½ ft. spread -----	\$6.00
1½-2 ft. spread -----	4.50	2½-3 ft. spread -----	8.00

PINE, PINYON—A low growing pine, thickly branched, which is just beginning to be appreciated. Very valuable for rock gardens because of its comparatively small size.

2-2½ ft. -----	\$4.00	3-4 ft. -----	\$7.00
2½-3 ft. -----	5.50	4-5 ft. -----	10.00

PINE, PONDEROSA (Western Yellow Pine)—Extra long, dark green needles resembling Austrian Pine, but more rapid grower.

1-1½ ft. -----	\$1.50	1½-2 ft. -----	\$2.50
2-3 ft. -----			3.50

SPRUCE, BLACK HILLS (*Picea canadensis albertiana*)—Symmetrical, compact and bushy of growth. Even the small trees form round, compact bodies. Suitable for porch urns.

4-5 ft. -----	\$7.50	7-8 ft. -----	\$14.00
5-6 ft. -----	9.50	8-9 ft. -----	16.00
6-7 ft. -----	12.00	9-10 ft. -----	19.00

SPRUCE, COLORADO BLUE

(*P. pungens glauca*)—These trees are nursery grown, not collected, and they are compact in growth, with plenty of fibrous roots so that they will live. Silvery blue color.

1-1½ ft. -----	\$2.50
1½-2 ft. -----	3.75
2-3 ft. -----	5.00
3-4 ft. -----	7.50
5-6 ft. -----	12.50
6-7 ft. -----	15.00
7-8 ft. -----	17.50
8-9 ft. -----	20.00
9-10 ft. -----	22.50
10-11 ft. -----	25.00

Also larger sizes up to 15 ft. Prices on request.

SPRUCE, COLORADO GREEN

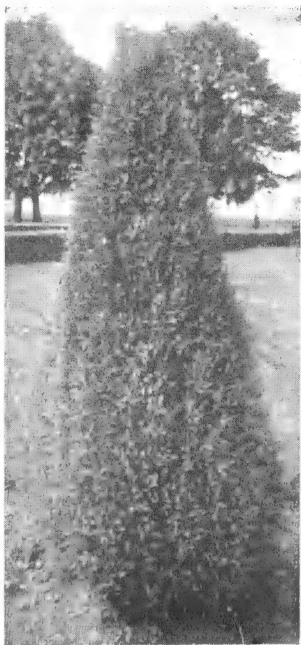

(*P. pungens*)—Equal in shape, the green form of the Colorado Spruce deserves to be planted more. There is no other one so hardy and lasting.

1½-2 ft. -----	\$3.00
2-3 ft. -----	4.00
3-4 ft. -----	6.00
4-5 ft. -----	8.00
5-6 ft. -----	10.00
6-7 ft. -----	12.00
7-8 ft. -----	14.00
8-9 ft. -----	16.00
9-10 ft. -----	18.00
10-11 ft. -----	20.00

SPRUCE, MOERHEIM BLUE

(*Picea pungens moerheimi*)—Similar to Colorado Blue Spruce. Needles are more rich, deep blue.

1½-2 ft. -----	\$4.50
2-3 ft. -----	6.00
3-4 ft. -----	9.00

Juniper Scopulorum

HARDY PERENNIALS

and ROCK GARDEN PLANTS

PERENNIALS add the finishing touch to the yard and garden. They bring to it more of the gaiety and charm of color. Hardy and dependable, they live over winter to bloom again each year.

In striving to get pleasing effects in the perennial border, it is often advisable not to use too great a number of varieties. Repetition at intervals throughout the border of the same varieties will tie the border together and make a more pleasing effect.

Our Perennials Are Freshly Dug from the Fields and
Delivered Direct To You.

Varieties marked with an asterisk (*) are those suitable for rock garden planting.

PRICES—UNLESS OTHERWISE INDICATED, 25c EACH; \$2.50 PER DOZ; \$18.00 PER 100.

ACHILLEA, MILLEFOLIUM ROSEUM (Pink Yarrow)—Pink flowers in dense heads. 18 inches.

ACHILLEA, PTARMICA (Yarrow)—Small double white flowers. Fine for cutting. Blooms all summer. Hardy. 35c each; \$3.50 per doz.

***ACHILLEA, TOMENTOSA**—Bright yellow flowers July to September.

***ALYSSUM, SAXATILE COMPACTUM**—Masses of bright yellow flowers. Early spring. 1 ft. 35c each; \$3.50 per dozen.

ANCHUSA, ITALICA (Blue)—Tall spikes of beautiful gentian blue flowers in June and intermittently all summer. The foliage is rough and hairy.

***ANCHUSA, MYOSOTIDIFLORA**—Blue flowers in clusters resemble forget-me-nots. May and June. Dwarf. 35c each. \$3.50 per doz.

ANTHEMIS, TINCTORIA (Hardy Marguerite)—Blooms all summer. Large yellow flowers, finely cut foliage. Hardy.

***AQUILEGIA, CAERULEA** (Rocky Mountain Columbine)—A stocky plant with bright blue long-spurred flowers. The state flower of Colorado.

AQUILEGIA, HYBRIDS—Long spurred. Selected hybrids are available in the following colors; Red and yellow; light purple, yellow center; cream tinted lavender; lavender and white; assorted. 35c each; \$3.50 per dozen.

***ARMERIA** (Thrift)—A dwarf plant excellent for rock gardens. Pink flowers in globular heads.

ARTEMESIA, STELLERIANA (Old Woman)—Deeply cut silvery white foliage. 18 inches.

ASCLEPIAS, TUBEROSA (Butterfly Flower)—Bright orange flowers in clusters that are shaped like butterflies. 18 in.

All Perennials 25c each; \$2.50 per doz.; \$18.00 per 100
unless otherwise indicated.

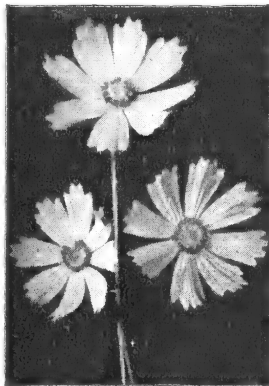

***ASTER, ALPINUS** (Rock Aster)—Large blue or white flowers springing from dense tufts of leaves close to the ground. Fine for rock gardens.

***ASTER, ALPINUS GOLIATH**—Large showy, bluish-purple flowers. May, June. Plant in full sun.

ASTER, HARDY (Michaelmas Daisy)—Tall growing with large clusters of daisy-like flowers in the fall. Blue, Pink, or Purple.

BLEEDING HEART (Dicentra)—Graceful long clusters of heart-shaped pink flowers. 50c each. \$5.00 per dozen.

BOLTONIA, LATISQUAMA (Violet Boltonia)—Pink aster-like flowers. Summer and fall.

Coreopsis

***CHIVES** (Wild Onion)—Narrow hollow leaves. Rose colored flowers in ball clusters. 6 inches.

CHRYSANTHEMUMS

BARBARA CUMMING—Clear yellow, 3 inch flowers, shading to orange-bronze toward center. Grows 2 ft. tall. Late August through October. 40c each; \$4.00 per dozen.

CRIMSON SPLENDOR—Masses of unusually large crimson-maroon flowers, intensified with deep garnet shading and contrasting with a prominent golden yellow center. Blooms in late September. 40c each; \$4.00 per dozen.

GLORY OF SEVEN OAKS—Masses of blooms of clear yellow. Medium height. September. 40c each; \$4.00 per dozen.

PINK CUSHION—Low growing type, forming mounds of pink blooms reminding one of the old-fashioned Azalea. Early September. 40c each; \$4.00 per dozen.

VIVID—Rosy crimson or amaranth shade. September. 40c each; \$4.00 per dozen.

White, bronze, pink, rose, or yellow chrysanthemums and button chrysanthemums. 35c each; \$3.50 per doz.

CHRYSANTHEMUM, MAXIMUM (Shasta Daisy)—Large white flowers with golden centers. Hardy. Profuse.

COREOPSIS, GRANDIFLORA—Rich yellow, daisy-like blossoms. 20c each. \$2.00 per dozen, \$15.00 per 100.

DELPHINIUM, Larkspur

BELLADONNA—Heavenly Blue. 25c each; \$2.50 per doz.

BELLAMOSA—Dark blue. 25c each; \$2.50 per doz.

HYBRIDS—Tall growing delphiniums in colors ranging from pale blue to deep indigo, some toned with pastel shades. 35c each; \$3.50 per doz.

DIANTHUS BARBATUS (Sweet William)—Among the oldest of the old-fashioned flowers. Dark green foliage and flat, bright colored flower heads add beauty to the garden all summer. 20c each; \$2.00 per dozen; \$15.00 per 100.

***CALLIRHOE, INVOLUCRATA** (Poppy Mallow)—Trailing plant. Finely divided foliage. Saucer-shaped flowers of cerise-red with white centers. Blooms all summer and fall.

***CAMPANULA, CARPATICA** (Bellflower)—Showy blue bell-shaped flowers. June until October. 35c each, \$3.50 per dozen.

CAMPANULA, GLOMERATA—Rich purple-violet flower bells clustered toward the top of 12 to 15 inch stems. 35c each, \$3.50 per dozen.

CENTAUREA, DEALBATA—Large and striking rose pink flowers. June-July.

CENTAUREA, MONTANA—Large heads of blue flowers. Summer. 2 ft.

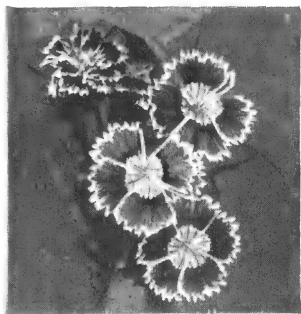

***CERASTIUM, TOMENTOSUM** (Snow-in-summer)—Silvery foliage. Snow white flowers in May. Trailing plant.

CHELONE (Shell-flower)—An herb with bright coral flowers. Does best in half-shaded damp places.

Dictamnus Fraxinella
(Gas Plant)

All Perennials 25c each; \$2.50 per doz.; \$18.00 per 100 unless otherwise indicated.

Dianthus, Plumarius

***DIANTHUS DELTOIDES** (Maiden Pink)—A very dwarf variety which is excellent for the rock garden.

***DIANTHUS, KNAPPI**—A dainty species with slender stems, bearing clusters of small yellow blossoms. Grows best in dry, sunny place.

***DIANTHUS PLUMARIUS** (Grass Pink)—These are the hardy Scotch or Clove pinks. The gray-blue foliage is attractive all year; flowers come in various shades of pink. Fine for rock or wall garden.

***DIANTHUS, ROSE CUSHION**—Outstanding new variety. Bright rose colored flowers. Low growing and compact. Surprisingly showy considering that it is such a tiny plant.

DICTAMNUS. FRAXINELLA (Gas Plant)—Plant of compact growth with shiny leaves. Fragrant flowers, pink and white mixed. 35c each; \$3.50 per dozen.

ERYNGIUM PLANUM (Sea Holly)—Characterized by its finely cut spiny foliage and thistle-like heads of steel blue flowers. Can be dried for winter.

***EUPHORBIA, MYRSINITES**—Low growing. Bluish, fleshy foliage in circular formation around somewhat trailing stems. Yellow flowers in clusters. Spring blooming.

FERN, COLORADO MALE—Very hardy; fine for shady spots. 50c each, \$5.00 doz.

***FESTUCA GLAUCA** (Blue Fescue Grass)—Grown for dense tufts of very narrow, silvery blue blades. Used for borders or for contrast with darker foliage. Grows to 15 inches.

GAILLARDIA (Blanket Flower)—Deep red with yellow border. Blooms steadily. 20c each, \$2.00 per dozen, \$15.00 per 100.

GYPHOPHILA (Baby Breath)—The profusion of tiny white flowers which come into bloom all at once gives this plant a frothy mist-like appearance. Useful in borders, or the blossoms may be dried and used in winter bouquets.

GYPHOPHILA, BRISTOL FAIRY—Largest double flowering variety. Long blooming period. Does not dry as well as Holland Grafted. Large roots 75c each.

GYPHOPHILA, HOLLAND GRAFTED DOUBLE WHITE—Large double flowers. This is the variety that is grown commercially. 50c each, per dozen, \$5.00.

GYPHOPHILA, PANICULATA—A single flowering form of the above. Each 25c, per dozen, \$2.50.

Hibiscus (Rosemallow)

***GYPHOPHILA, REPENS**—Trailing plant with masses of white flowers.

GYPHOPHILA, REPENS BODGERI—Dwarf, pink double flowering gypsophila. Blooms earlier than any other double flowering form. Sometimes grows to a height of 1 ft. 35c each, \$3.50 per dozen.

HELIOPSIS PITCHERIANA (Hardy Zinnia)—Has large, rather coarse flower heads of golden yellow.

HEMEROCALLIS, FULVA (Brown Day Lily)—Coppery orange flowers; grass-like foliage.

***HEUCHERA SANGUINEA**—Bright crimson flowers on 12 to 18 in. stems in June and September. Very free flowering. Excellent for the rock garden.

HIBISCUS (Rosemallow)—Immense single flowers. July to September. 5 ft. Hardy. Pink and white mixed. Also red.

All Perennials 25c each; \$2.50 per doz.; \$18.00 per 100 unless otherwise indicated.

HOLLYHOCKS, DOUBLE (Althea Rosea)—Select colors; Newport Pink, Salmon, Yellow, Red, and White. Price 20c each; \$2.00 per doz.

***IBERIS, SEMPERVIRENS** (Hardy Candytuft)—Fine for rock garden. Covered with a mass of white flowers in early spring.

IRIS, COMMON—Sometimes called "flags". Lavender, blue or yellow.

IRIS, SIBERIAN (Sibirica)—A variety with blue flowers that blooms later, and prefers moist soils.

LATHYRUS, LATIFOLIUS (Perennial Sweet Pea)—Cerise-pink; flowers all summer. May be cut for table decoration.

LIATRIS PYCNOSTACHYA (Kansas Gay Feather)—Purple flower spikes. July to October. 4 ft.

LILIUM, ELEGANS RED RUSSIAN—A dark reddish-orange variety. 35c each.

LILIUM, TENUIFOLIUM (Coral Lily)—Slender growing. 18 inches high, bright scarlet flowers. Very pretty. 35c each.

LILIUM, TIGRINUM (Tiger Lily)—Orange-red flowers, spotted black. 35c each.

LINARIA, DALMATICA (Kenilworth Ivy)—Glaucous leaves. Yellow flowers in loose spike. 3 to 4 ft.

LINUM, PERENNE (Perennial Flax)—Feathery foliage. Delightful blue flowers fresh each morning.

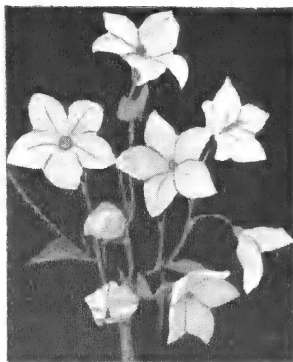

LUPINE—Stately plants with 3 ft. spikes of pink or blue pea-shaped flowers.

LYCHNIS, CHALCEDONICA (Maltese Cross)—Vivid scarlet flowers in cross shape.

***MERTENSIA, VIRGINICA** (Virginia Cowslip)—Blue bell-shaped flowers fading to pink. Early spring. 1 to 1½ ft. Each 35c, \$3.50 per dozen.

***NEPETA, MUSSINI** (Ground Ivy or Catnip)—Excellent for rock gardens. Dwarf and compact. Produces masses of lavender blooms all spring and intermittently during summer. 35c each; \$3.50 per doz.

PARDANTHUS BELAMCANDA (Blackberry Lily)—Star-shaped flowers of orange color, spotted black, on 24 inch stems. The clusters of shiny seeds in the fall resemble blackberries.

Platycodon Grandiflora

PHLOX

Phlox are more attractive when separated as to color, using the white varieties between. 30c each; \$3.00 per dozen.

AFRICA—Carmine-red with blood-red eye.

M. COMPTE—Wine color. Very brilliant.

BRIDESMAID—White. Crimson center.

JULES SANDEAU—Rather dwarf but free flowering. Brilliant pink.

MRS. JENKINS—Pure white.

PROFESSOR VIRCHOW—Scarlet.

RIJNSTROM—Rose pink. Lovely.

R. P. STRUTHERS—Brilliant rosy red, crimson center.

***SUBULATA** (Creeping Phlox)—In the spring this plant is a mass of blooms. It is splendid for rock gardens and for edging. Pink or white. 30c each; \$3.00 per dozen.

PHYSOSTEGIA, VIRGINICA (False Dragonhead)—Long spikes of delicate blue flowers in July and August. Sometimes grows 3 or 4 feet high.

PLATYCODON GRANDIFLORA (Balloonflower)—Blue or white showy flowers at tip of each branchlet. Buds look like tiny balloons. June, July. 1 to 2 ft.

POLEMONIUM COERULEUM—Sky blue flowers in June. 12 to 18 inches. 35c each; \$3.50 per dozen.

POPPY, ORIENTAL (Papaver Orientale)—Mammoth flowers of brightest crimson. May and June.

***PRUNELLA, GRANDIFLORA**—Violet flowers all summer. Prefers slight shade.

PYRETHRUM (Painted Daisy)—Finely cut leaves. Daisy-like flowers of magenta, pink or white.

Veronica, Longifolia Subsessilis

All Perennials 25c each; \$2.50 per doz.; \$18.00 per 100 unless otherwise indicated.

Sedum, Acre

ent kinds of sedum vary a great deal in appearance. However, a fleshy or succulent type of foliage seems to be characteristic of all.

The dwarf varieties are attractive rock garden or ledge plants, or may be used as ground covers. The upright varieties are showy in the perennial border. Sedum, spectabile is excellent for planting in porch urns.

DWARF VARIETIES

***SEDUM, ACRE**—Green foliage. Small bright yellow star-shaped blossoms.

***SEDUM, ALBUM**—Thick, waxy round foliage. White flowers.

***SEDUM, ELLACOMBIANUM**—Arching stems. Bright yellow flowers. June.

***SEDUM, GLAUCUM**—Pinkish flowers. Slow growing.

***SEDUM, SPURIUM**—Dainty, sprawling variety. Red tinged in the fall. Good for covering sandy banks.

UPRIGHT VARIETIES

SEDUM, IBERICUM—Purplish-pink flowers. July or August. 6 inches or less.

SEDUM, SPECTABILE—Flat crowded heads of white flowers. August, September. 18 in.

SEDUM, SPECTABILE BRILLIANT—Cerise colored. Flower clusters sometimes 4 inches across.

***SIDALCEA, HOBY GEM** (Greek Mallow)—Showy bright rose colored flowers. June, July. 2 to 3 ft. 35c each; \$3.50 per dozen.

***SILENE, SCHAFTA**—Masses of bright pink flowers July to October. 4 to 6 in. 35c each; \$3.50 per dozen.

***STATICE LATIFOLIA** (Great Sea Lavender)—Violet flowers in dense heads which spring from tufts of narrow, evergreen foliage. May, June. 1½ ft. 35c each.

STOKESIA, CYANEA (Cornflower Aster) — A hardy plant of the aster family. Flowers of azure blue with petals finely divided. Blooms in August. Grows 12 to 18 inches high.

***TEUCRIUM, CHAMAEDRYS** (Germander)—Low growing with glossy, green leaves.

THALICTRUM, AQUILEGIFOLIUM — Graceful foliage, small white or pink flowers.

TRITOMA, UVARIA (Red Hot Poker)—Red to salmon color. Rush-like foliage supports smooth, thick flowered stalks a yard long with a single fiery cone at top. Very effective. 40c each.

VERONICA, LONGIFOLIA SUBSESSILIS—Distinctive foliage of roughened bronze green. Long compact spikes of deep blue flowers in July and August. 35c each, \$3.50 per dozen.

Yucca, Filamentosa (Adams Needle)

All Perennials 25c each; \$2.50 per doz.; \$18.00 per 100 unless otherwise indicated.

***VERONICA RUPES-TRIS**—A fine rock plant growing 3 to 4 inches high; thickly matted, deep green foliage, almost hidden in early June under bright blue flowers. Does well in light shade.

***VINCA, MINOR** — Small, evergreen, glossy leaves all year long. Bright blue flowers in the spring. Viny habit of growth. Excellent ground cover for shady places.

***VIOLA CORNUTA** (Tufted Pansy)—Flowers like small pansies. Bloom all summer and on into the fall. 20c each; \$2.00 per doz.; \$15.00 per 100.

VIOLET, BLUE — Excellent for shady places.

YUCCA—Desert plants that do well in the garden. The tall stems in June and July, are surmounted with huge clusters of white flowers. Leaves heavy, grass-like and evergreen. They spread to make a large group.

YUCCA, ANGUSTIFOLIA (Y. Glauca)—Soap Weed, white.

YUCCA, FILAMENTOSA (Adams Needle)—Creamy white.

PEONIES

Plant peony roots at a depth so that the top root bud is just barely covered with earth. If they are set too deep, they will not bloom as they should.

Fertilizing and watering peonies just before and during the flowering season helps produce better blooms.

We offer only the best large flowering varieties, and all peonies listed are 3 to 5 eye roots. Clumps may also be obtained. Ask for prices.

AVALANCHE—Milk white, center petals flecked with carmine. 50c.

EDULIS SUPERBA—Clear deep pink. Very early. 50c.

FELIX CROUSSE—Dazzling ruby red. Mid-season. 75c.

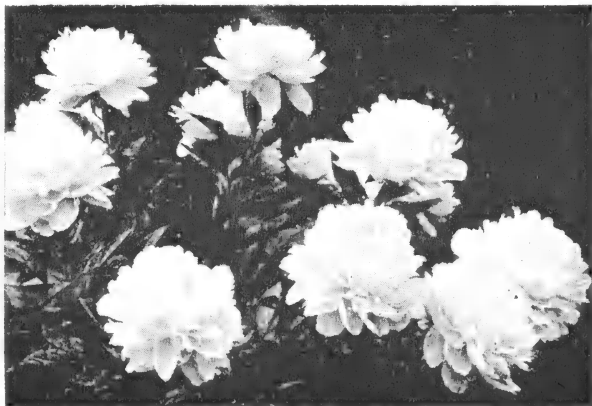

FESTIVA MAXIMA—Pure white with a few flecks of carmine in center. Most beautiful white variety. Early. 50c.

FRANCOIS ORTEGAT—Semi-rose type. Large deep crimson, with brilliant golden-yellow anthers. Mid-season. 50c.

LA MARTINE—Double type. Dark old-rose pink, each petal bordered with pale greyish white. Late flowering. 50c.

MEISSONIER—Bomb type. Brilliant crimson, full double flowers on stiff wiry stems. Mid-season. 50c.

Pink, White, Red, 40c; Mixed colors, 35c each, 3 for \$1.00.

All Perennials 25c each; \$2.50 per doz.; \$18.00 per 100 unless otherwise indicated.

Plant FRUIT TREES this Spring

No matter how small your place, there is room for a cherry or plum tree. Plant your fruit trees this spring. Not only will they supply the family table with delicious tree-ripened fruit, but their blossoms, foliage and colorful fruits will add beauty to your grounds.

Our young trees are healthy, well-rooted and vigorous. We can supply you with your favorite varieties, guaranteed true to name.

APPLES

Price: 11-16 inch, 5 foot and up, each \$1.00; per 10, \$8.50; 1-1 $\frac{1}{4}$ inch, each \$1.50; per 10, \$14.00. Large size 1 $\frac{1}{4}$ -1 $\frac{1}{2}$ inch, each \$2.00; per 10, \$19.00; 1 $\frac{1}{2}$ -2 inch, each \$2.75.

ANOKA—Bears younger than any other apple, is blight resistant and sturdy. Fruit ripens in August. Hardy in northern climates.

DELICIOUS—Best known and most universally liked apple. Trees long lived and vigorous. Late fall or winter.

DUCHESS—A large beautiful apple. Streaked red and yellow. Tender, juicy and pleasant.

GRIMES GOLDEN—Large yellow fruit. A bit tart but fine for cooking. Hardy and dependable.

NORTHWEST GREENING—Large greenish apple. Good quality. Excellent for cooking.

STAYMAN'S WINESAP—Fruit large, deep red; keeps in storage until May.

WEALTHY—Red striped fruits of good size. Tree extremely hardy. Bears heavily.

YELLOW TRANSPARENT—The yellow acid fruits are among the first apples of summer. Excellent for eating or for cooking. Hardy, upright growing trees. Bear young.

We also have the following varieties, but not in all sizes: Fameuse, Haralson, Jonathan, Red Duchess.

CRAB APPLES

Price: 11-16 inch, 5 foot and up, each \$1.00; per 10, \$8.50; 1-1 $\frac{1}{4}$ inch, each \$1.50; per 10, \$14.00; Large size, 1 $\frac{1}{4}$ -1 $\frac{1}{2}$ inch, each \$2.00; per 10, \$19.00.

HYSLOP.

RED SIBERIAN.

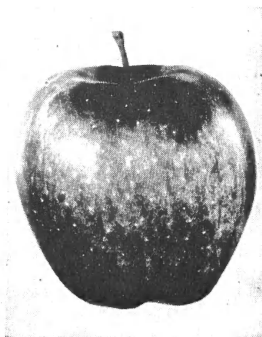

TRANSCENDENT.

WHITNEY.

CHERRIES

Price: 3 $\frac{1}{2}$ -4 ft., 9-16 inch to 11-16 inch cal., \$1.00 each; \$8.50 per 10; 4-5 ft., 11-16 inch to 1 inch cal., \$1.25 each; \$11.00 per 10.

EARLY RICHMOND—“June-sour-red” about covers it. Fruits are medium sized but with excellent flavor, dark red, stone free. Very early.

Delicious Apple

ENGLISH MORELLO—The standard late variety of sour cherry. Rather acid to eat as a dessert but excellent for canning, being dark red, almost black in color. Trees hardy, dwarf in habit of growth, and large bearing. July.

MONTMORENCY—A fine large fruited cherry, somewhat like Richmond, but almost a month later in ripening. Trees are hardy and heavy bearing. This is the variety most grown commercially in Colorado.

YELLOW GLASS—One of the best sweet cherries. Fruit large and golden with firm flesh.

PEACH

Price: 4-5 ft., each \$1.00.

J. H. HALE—Large size. Vivid carmine over yellow ground. Tree rapid growing and hardier than most varieties. Almost as firm as a clingstone.

PEAR

Price: 4-5 ft., each, \$1.25.

BARTLETT—Large size, with beautiful blush; buttery, very juicy and high flavored; bears early.

PLUMS

Price: 11-16 inch, 4½-6 ft., each \$1.00; per 10, \$8.50; 1-1¼ inch, each, \$1.50; per 10, \$14.00. Large size, 1¼-1½ inch each \$2.00; per 10, \$19.00; 1½-2 inch each, \$2.75. We do not have all varieties in the larger sizes.

BLUE DAMSON—Deep purple fruits of delicious quality. One of the best for marketing as it stands handling well. Tree vigorous, hardy and resists disease remarkably well.

GERMAN PRUNE—Large, long-oval, purple, with a blue bloom; flesh firm, sweet and pleasant, separating from the stone.

HANSKA—August. Large red, apricot flavor. Very good quality.

ITALIAN PRUNE—Probably most widely planted. The delicious, juicy fruits with purplish-black skins and greenish-yellow flesh are sub-acid and free stone.

LOMBARD—Violet-red, juicy. Flesh adheres to stone. Good market variety.

OMAHA—Light red. Midseason.

OPATA—A Hansen Hybrid. Purplish red, early.

RED WING—One of the largest; early fruiting; heavy and regular bearer; very hardy. A really valuable plum that should be in every orchard. Free stone and mid-season.

SAPA—July. Medium size. Fruit purple with red flesh. Juicy and very good.

UNDERWOOD—An attractive large, red plum with firm juicy flesh and a small pit. Hardy.

WANETA—A Hansen hybrid. Large, red fruit.

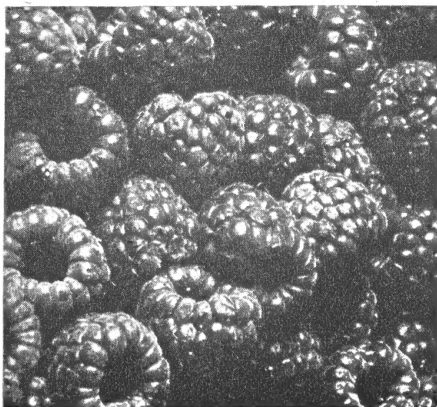

WILD GOOSE—July. One of the older varieties but very desirable. Large, red and prolific.

We also have the following varieties, but not in all sizes: La Crescent, Loring Prize, Monitor, Superior.

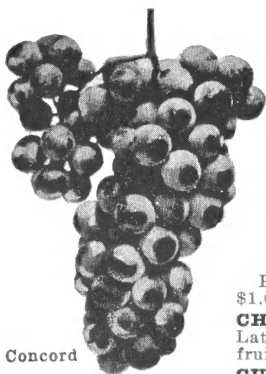

SMALL FRUITS

The red raspberry is an ideal home garden subject; and there are varieties, such as the St. Regis, that bear all seasons. These are especially good for planting in the small garden. Black raspberries are easily grown, though they spread over considerable room with their drooping habit. Blackberries should be used only where their custom of sending out long suckers will not annoy. Currants make large bushy shrubs which can be grown in mass plantings, provided they are not crowded. Gooseberries have a somewhat similar habit of growth and are easily handled.

For a trellis, an arbor, a pergola, or to clothe a fence, grapes are unrivaled. Their blossoms are fragrant and their fruits have great decorative value.

Cumberland Raspberry

Concord

BLACKBERRIES

Price: Strong, 2 yr. No. 1, each 10c; per dozen, \$1.00; per hundred, \$6.00.

ELDORADO—Jet black berries of enormous size. Preferred by canners and used for that purpose in large quantities.

DEWBERRIES

Price: Strong 2 yr. No. 1, each 10c; per dozen, \$1.00; per 100, \$6.00.

LUCRETIA—Jet black, large, best quality. Most dependable dewberry.

RASPBERRIES

Price: 2 yr. No. 1, each 10c; per dozen \$1.00; per hundred, \$6.00.

CHIEF—Fruits about 10 days earlier than Latham. Hardy and disease resistant. Red fruit. Excellent quality.

CUMBERLAND, BLACK—Largest black raspberry known; unusually strong grower, perfectly hardy. The most profitable raspberry grown.

LATHAM, LARGE RED—Disease resistant. Outcrops all others. Berries large, brilliant red, fine flavor. Plants very hardy.

ST. REGIS, EVERBEARING—Gives a crop of fruit all summer and autumn. Berries are bright crimson of large size and of surprising quality, sugary with full raspberry flavor. Succeeds upon all soils; absolutely hardy.

CURRENTS

Price: Strong 2 yr. No. 1, each 25c; per dozen \$2.50.

FAY'S PROLIFIC—One of the best and most popular red currants. Productive, hardy and vigorous.

RED CROSS—Hardy variety, bearing bright red fruit.

Extra large, 4 year, fruit bearing size plants: each, 50c; per dozen, \$5.00.

CHERRY—A very large, red variety much used for commercial planting. Excellent quality and one of the best.

WHITE GRAPE—White, large berries; very good flavor. The best white Currant.

GOOSEBERRIES

Price: Strong 2 yr. No. 1, each 35c; per dozen \$3.50. 4 yr., extra large, fruit bearing size, 75c each; \$7.50 per dozen.

CARRIE—Pale red with medium sized berries. Quality excellent, very productive. Bushes are almost free from thorns and are very disease resistant.

CHAMPION—A greenish yellow, early variety with medium sized fruits. Prolific.

DOWNING—Light green. Very large and productive. Very good.

GRAPES

Price: Strong 2 yr. No. 1, each 25c; per dozen, \$2.50; 4 yr., extra large, fruit bearing size, each, 50c; per dozen, \$5.00.

AGAWAM—Red, very sweet.

BETA—Small, blue. Bear heavily.

CONCORD, LARGE BLUE—Do not bear as heavily as some varieties, but the fruit is delicious.

MOORE'S EARLY, BLUE—Large and delicious flavor. Very good for all purposes.

NIAGARA, WHITE—Good bearer and fine flavor. Good for table use or wine. One of the best white grapes.

MASTODON EVERBEARING STRAWBERRIES

Plants productive. Fruit large. Often bear ninety days after planting.

Price: \$1.50 per hundred; \$10.00 per 1000, not guaranteed against loss.

GARDEN ROOTS

WASHINGTON ASPARAGUS—Rust proof. Undoubtedly the best asparagus grown. Plant so that crowns will be about four inches deep in the ground, enabling you to cut the stalks below the ground, and, in this way, you will get tender asparagus. Price: 10 roots for 75c, 100 roots for \$6.50.

VICTORIA RHUBARB—This variety is a favorite because of its hardiness and excellent flavor. It is desirable for the home garden where good table quality is first considered. Price: 10 roots for \$1.25, 100 roots for \$10.00.

HORSERADISH—Plants, 25c each; roots, 10c each.

OUR GUARANTEE

On All Trees, Shrubs, Evergreens, Roses, and Perennials

Every variety of tree, shrub, plant and vine we sell has been tested at our nurseries. Each meets the requirements of soil and temperature in this locality, and is of uniform high quality, healthy, vigorous and true to name.

If proper care is given in irrigating and cultivating, the nursery stock purchased of and **PLANTED BY US**, and stock paid for as agreed, that which fails to leaf out and start growth will be furnished free of charge at the next proper planting season. Requests for replacement must be received at our office before Sept. 1st following planting as we cannot assume responsibility for winter killing on spring planted stock. Every item of nursery stock planted by the Tolleson Nurseries is backed by the above guarantee except the following: Stock planted in urns or tubs, and fall planted bulbs.

When stock is planted by the customer, we will stand half the loss—in other words, replace the plants at half price.

Our nursery stock is state inspected guaranteeing to the customer plants free from insect pests and disease, but of course, we cannot be responsible for damage occurring later from these causes, nor can we assume responsibility for damage resulting from hail, drought, or other causes beyond our control.

We agree to willingly make replacements, but cannot deduct from the bill for any items which fail to grow. Neither can we be responsible in any amount or size greater than originally sold. Our acceptance of a customer's order implies that the customer accepts our conditions of sale. With your co-operation every transaction will be mutually satisfactory.

MONEY SAVING SPECIALS

From time to time during the spring planting season, we will have a special sale on several items. Come to the nursery and see what we have to offer.
